To Whom It May Concern:

It is with great pleasure that I recommend Infinity Physician Resources to anyone needing to find a physician in today's challenging market. The level of service and attention to detail the Infinity team gave us during our search was unmatched in all of my years of medicine. Not to mention, they found us multiple outstanding physicians very quickly.

From the very beginning, starting with the pre-profile questionnaire and the physical on-site evaluation, all of the way through to the attention to detail in their presentation of the candidate, they left no stone unturned and took every step to not only ensure they were finding us the right physician for our practice, but they never took their attention away until the deal was done.

Recruiting has always been a timely and taxing endeavour, but it is hard to describe how much of a relief it was to know that we had someone on your team like, Infinity, who cares as much about getting it right as they did about getting it done.

We know that Sean, Cody, and the Infinity team were always looking for our best interest and we knew we would be taken care of. They were, without question, a partner we can trust.

Please do not hesitate to contact me with any questions.

Sincerely,
